

Geography home learning tasks

Your teacher will have given you your **home learning task in the start** of each term.

Your **half way check point**, requiring a parental signature to show you have understood the task and have started work on it, is usually due in 2 weeks after the home learning has been given to you.

The **deadline** for submission is usually 4 weeks from the date you were given the home learning.

If you have **lost** your home learning task, please find the instruction sheet on **Moodle** (<http://moodle.stbonifaces.com/bonifacemoodle>) on the school website. Your password is the same as your school login. Go to Geography, your year group and select the home learning from the correct term.

You will be given feedback comments on your home learning. For particularly good standards of work merits and even postcards to take home are awarded.

Year 7
